The McKinney Fire Fighters Association is pleased to offer our endorsement of David Brooks in his bid to become the City of McKinney, At-Large Council Representative.

Mr. Brooks brings financial experience and expertise that will help the city navigate these challenging economic times. His proven leadership will be vital in bringing economic development to the city that will help create a greater commercial and retail tax base. By establishing an environment where businesses can locate, build and profitably grow their companies, he will help create new jobs and commercial property value.

As a business owner in McKinney for 20 years and a past member of the McKinney Economic Development Corporation Board and McKinney Chamber of Commerce Board, David Brooks has proven his commitment to develop and relocate businesses to our community and to generate new sources of income to keep homeowners from having to carry a disproportionate part of the tax burden.

Amidst the current economic downturn, McKinney will need a leader whose experience and vision will help us continue our positive momentum, promote economic growth, and preserve our unique quality of life. David Brooks is that leader!

Please join the McKinney Fire Fighters Association in supporting David Brooks for City of McKinney, At-Large Council Representative.

Steve Dorris - President
